**RENEWED PETITION UNDER RULE 37 CFR 1.47(a)**

This Request for Reconsideration is in response to the Decision Refusing Status under 37 CFR 1.47(a) mailed December 12, 2002. Gregory Keyes, the missing inventor, was employed by Meritor, and under an obligation to assign inventions to Meritor. Mr. Keyes has left Meritor and has not been located.

Applicant previously submitted (1) the fee under 27 CFR 1.17(h) and (3) a statement of the last known address of the missing inventor. The Decision on Petition states that (2) factual proof that the missing joint inventor refuses to execute the application or cannot be reached after diligent effort needs to be submitted. The Decision on Petition also states that (4) an oath or declaration by each 37 CFR 1.47(a) applicant on his or her own behalf and behalf of the non-signing joint inventor needs to be submitted.

Applicant has submitted factual proof that the missing inventor Gregory Keyes cannot be reached after diligent effort. Petitioner is submitting an affidavit signed by Horst Schumacher of Palgen Schumacher Kollegen (Palgen) in Germany summarizing the efforts taken to locate Mr. Keyes and to obtain Mr. Keyes' signature for the declaration for this patent application. As stated in Mr. Schumacher's affidavit, Palgen (then Konig Palgen Schumacher Kluin) sent correspondence

to Mr. Keyes relating to a different patent application at Meritor Automotive GmbH on December 22, 2001. Palgen was informed on March 2, 2001 by Mrs. Post of Meritor Frankfurt by telephone that Mr. Keyes had moved without leaving a new address or telephone number. Palgen attempted to call Mr. Keyes at his last known phone number, but the line was no longer in service. Palgen also contacted the British law firm of Marks & Clerk (**Exhibit A**) on March 21, 2002 inquiring how to find a new address of a British citizen. Marks & Clark responded by letter (**Exhibit B**) on March 23, 2001 stating that there is no easy way of searching for a British citizen as there is no requirement in Great Britain for address registration. Additionally, Palgen contacted Mrs. Anna Riley of the Personal Department of Meritor Great Britain on April 9, 2001 by facsimile (**Exhibit C**) for information relating to Mr. Keyes' address. Mrs. Riley responded by email (**Exhibit D**) on April 9, 2001 with an address and phone number for Mr. Keyes. However, this address and phone number were old ones.

Palgen also send a copy of the complete patent application having serial number 10/089,032, a preliminary amendment, a declaration, and an assignment to Mr. Keyes at his last known address by registered letter (**Exhibit E**) on August 16, 2002. A declaration signed by Horst Schumacher is attached. As stated in paragraph 9 of the declaration, a complete copy of the declaration was sent to each inventor. The registered letter had registration number 07 6567 3284 7DE. The registered letter was delivered on August 24, 2002 and appears to be signed by Gregory Keyes. A copy of the delivery receipt signed by Mr. Keyes is attached as **Exhibit F**. Palgen also tried to find the phone number associated with Mr. Keyes' last known address. The German telephone company Deutsche Telekom stated that there was no known telephone number for Mr. Keyes at this address. The declaration of Horst Schumacher stating these facts is attached. To date, we have heard no response from Mr. Keyes.

Applicant also submitted an oath or declaration by each 37 CFR 1.47(a) applicant on his or her own behalf and behalf of the non-signing joint inventor. Each of the inventors were presented with a complete copy of the declaration. The Decision on Petition states that the declaration filed on August 26, 2002 is not in acceptable form as the declaration includes

multiple duplicate sheets. The Decision states that is unclear if the inventors were presented with only their signature page or if they were presented with a complete declaration for signing that was later complied into a single document. As stated in the declaration of Horst Schumacher, each of the inventors were presented with a complete copy of the declaration. A complete copy of the declaration was presented to each inventor, and the entire inventive entity appeared in the declaration as signed by the inventors.

Petitioner respectfully asks for reconsideration of the petition. Petitioner has presented evidence that diligent efforts have been made to located Mr. Keyes. No further fees are required. However, if any fees are required, the Commissioner is authorized to charge Deposit Account No. 50-1482, in the name of Carlson, Gaskey & Olds, P.C., for any additional fees or credit the account for any overpayment.

Respectfully submitted,

**CARLSON, GASKEY & OLDS, P.C.**

AFFIDAVIT OF HORST SCHUMACHER

I, Horst Schumacher, being warned that willful false statements and the like are punishable by fine or imprisonment or both, under 18 U.S.C. 1001, and that such willful false statements and the like may jeopardize the validity of the application or patent issuing thereon, declare that all statements made of my own knowledge are true and all statements made on information and belief are believed to be true.

1. I am a patent attorney at Palgen Schumacher Kollegen, a German law firm.
2. Palgen Schumacher Kollegen has been attempting to locate Gregory Keyes regarding several patent applications we have filed. We sent correspondence to Mr. Keyes at Meritor Automotive GmbH on December 22, 2000 regarding a previously filed patent application. On March 2, 2001, we were informed by Mrs. Post of Meritor Frankfurt by telephone that Mr. Keyes had moved without leaving a new address or a new telephone number.
3. We attempted to contact Mr. Keyes at his last known telephone number, but the line was no longer in service.
4. We also attempted to locate Mr. Keyes through the British law firm of Marks & Clerk on March 21, 2001. A copy of the correspondence is attached as Exhibit A. Robin J. Oxley of Marks and Clerk responded on March 23, 2001 and stated there was no easy way to obtain the new address of Mr. Keyes as there is no requirement for address registration in Great Britain. A copy of the letter from Marks & Clerk is attached as Exhibit B.
5. By facsimile, we contacted Mrs. Anna Riley, of the Personal Department of Meritor Great Britain on April 9, 2001. A copy of the facsimile is attached as Exhibit C. Mrs. Riley responded by email on April 9, 2001 with an address and phone number for Mr. Keyes, a copy attached as Exhibit D. The address provided was Mr. Keyes last known address.

6. We sent correspondence to Mr. Keyes by registered letter at his last known address on August 16, 2002. The correspondence included the complete patent application having serial number 10/089,032, a preliminary amendment, an assignment, and a declaration. The registered letter had registration number 07 6567 3284 7DE. A copy of this letter is attached as Exhibit E. The registered letter was delivered on August 24, 2002 and appears to be signed by Mr. Keyes. A copy of the delivery receipt signed by the recipient is attached as Exhibit F.

7. We never received a response from Mr. Keyes to the letter attached as Exhibit E. We tried to find the phone number associated with Mr. Keyes' last known address. The German telephone company Deutsche Telekom informed us that there was no known telephone number for Mr. Keyes at this address.

8. To date, we have heard no response from Mr. Keyes

9. All the inventors in this case were presented with complete copies of the declaration for their signature.

Dear Dr Schumacher

Thank you for your fax dated 21 March 2001.

In response to your query, there is no requirement for address registration as there is in Germany. Therefore, we do not know an easy way of obtaining the new address of a British citizen. It may be possible to check the electoral register, but information on the geographical region of the address is likely to be required to narrow the search. It may also be possible to go to a search agency, or investigation agency, who have more expertise in this field of searching.

I am sorry that we have not been able to help you more in your enquiry, and wish you luck in finding this information.

Yours sincerely

Yours sincerely,  
Paul Orley
